Dear Tephilla Prince,

I agree with you including the above papers towards your PhD dissertation.

Best regards,  
 Francesco Di Cosmo

**Oggetto:** Publications towards PhD dissertation

Dear Soumodev and Francesco,

According to the requirements/rules laid by my institute/examiners/Research Progress Committee, I would like to ask you the following:

Provided that the following two papers are not included in your PhD dissertation, is it alright with you, for me to include them towards my PhD dissertation?

1. Deciding Reachability and Coverability in Lossy EOS. PNSE, Petri Nets 2024: 74-95, Francesco Di Cosmo, Soumodev Mal, Tephilla Prince
2. Bounded Verification of Petri Nets and EOSs using Telingo: An Experience Report. CILC 2024, Francesco Di Cosmo, Tephilla Prince

Kindly respond to this email thread, with either of the following replies:

- "I agree with you including the above papers towards your PhD dissertation" or
- "I disagree with you including the above papers towards your PhD dissertation".

Thanks,  
 Tephilla Prince
